

### Ask the Experts: Q&A with Nephrologists

|                            |   |
|----------------------------|---|
| <b>Session Time</b>        | March 20 <sup>th</sup> , 2023 from 5:30 to 6:30 PM ET   |
| <b>Session Description</b> | As a doctor who specializes in kidneys, your nephrologist is the lead provider on your healthcare team in managing your kidney disease. Nephrologists make the key decisions about treating your kidney disease, including which medications you should take, monitoring your kidney function and helping you manage common side effects of kidney disease such as high potassium and anemia. In this session, two nephrologists, Dr. Kirk Campbell and Dr. Ashte Collins will answer your questions about kidney disease and conditions related to kidney disease, as well as provide insight on how to best work with your nephrologist for staying as healthy as possible with kidney disease. |

**Moderator:** Melanie Paris, M.A., M.P.H., Senior Director of Strategic Partnerships and Kidney Disease Education, American Kidney Fund

#### Speakers:

- Kirk Campbell, MD, Professor of Medicine/Nephrology, Icahn School of Medicine at Mount Sinai
- Ashte Collins, MD, Associate Professor of Medicine, George Washington University School of Medicine & Health Sciences
